

## Helicopter Exercise

1. Provide a list of factors below. Indicate whether they are control factors or noise factors.

2. In the table below, enter the 4 factors that you think would be most interesting to study. Indicate the factor levels at which you wish to test them.

Factor	Low Level	High Level
1.		
2.		
3.		
4.		

3. You need an operational definition of flight time (your response). Briefly describe how you will measure your response.
