STAT588/BIOL588 Final Project Template

John Doe

2023-10-11

Abstract-brief

Hypothesis or purpose of project [besides earning points]

Introduction/Background-brief

Method

Data

Include databases; GEO accession number (GSEXXXX); websites & URLs.
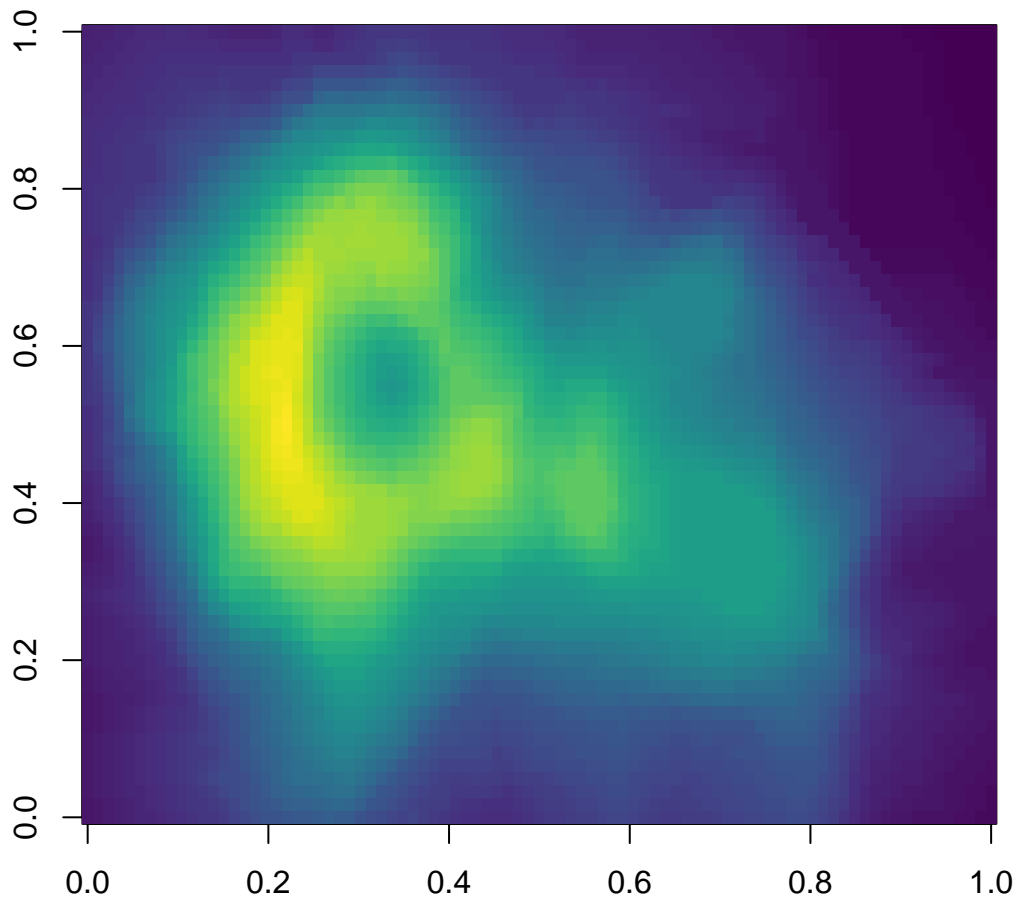

Statistical Model

Write down the statistical models/methods you used for the analysis.

Analysis Results

The results from implementing the model is shown in Table 1 below. In additioan, Figure 1 below shows someting important too.

Table 1: A table

	n=10	n=20
A	1	4
B	2	5
C	3	6

Discussion/Conclusion

Discussion- make clear the significance of this proposal. Mention limitations, or further considerations.

Appendix

R code can be found with the *.R file enclosed together with this report.

Reference

References- literature, web sites- including support sites you used or will need for the project

Getting R code from .Rmd file   Extract R code using purl function

```
library(knitr)
purl("Stat704_HWtemplate.Rmd")
```
