

## STAT Tutoring Center Customers:

**Please be aware that the intent of the STAT Tutoring Center is to provide assistance to students who:**

- Attend class regularly
- Make a serious attempt at their homework and then bring in specific questions
- Come to the Center to focus on one or two concepts that they still find difficult after working on their own.

**The STAT Tutoring Center staff should NOT be expected to provide the following:**

- **STAT Tutoring Center staff should NOT be expected to provide homework answers** – The goal is to increase understanding of students so the students can determine their OWN answers.
- **STAT Tutoring Center is NOT a substitute for attending class** – The material has been covered in class. It is not the responsibility of the Tutoring Center TA to **RE-TEACH** the class material.
- **STAT Tutoring Center is NOT a place where you can expect to learn all material that will be covered on an upcoming test** (Instead, you should visit the Tutoring Center as soon as you begin having difficulty and work in MULTIPLE VISITS as you encounter new concepts in class.)
