

STAT718/BIOL703: Genomic Data Analysis Final Project Presentation Rubric

1. Background (10 points)
2. Research Question & Objectives (10 points)
3. Data Handling & Preprocessing (15 points)
4. Algorithms & Computational Methods (25 points)
5. Results & Interpretation (10 points)
6. Visualization (15 points)
7. Discussion (15 points)

Total: 100

Optional Bonus (up to +20 points)

- (1) Development of novel algorithms or pipelines
- (2) Exceptional clarity or creativity in presentation
- (3) Novel Analytical Ideas
